TRAVEL PLAN CHANGES OR CANCELLATIONS

Our travel partner will process your information and suggest flight options. If your suggested flight aligns with our travel policy, we'll be happy to book it. Once you confirm your selection and Seerave approves it, the booking will be finalized. Please note that as a foundation, we aim to keep travel expenses reasonable while balancing comfort and budget considerations.

REIMBURSEMENTS

Seerave's invitation includes upfront costs, including flights, hotel, and meals during the conference. This is due to updated bureaucratic barriers on our side to processing reimbursement claims. Therefore, all travel arrangements are coordinated centrally through our travel agency (COSMOS Tours) in line with Seerave travel policies. Expenses and bookings outside of the process unfortunately cannot be reimbursed.

FAMILY + KIDS

Unfortunately, partners and children cannot be accommodated via the conference — you would need to make your own arrangements.

Please contact us if you have a critical situation.

SPECIAL REQUIREMENTS

- **Dietary restrictions and accessibility needs:** Please indicate these via the registration form.
- **Visa requirements:** You are responsible for obtaining necessary visas. Please start this process early.

Furthermore US / Canadian guests please be aware: Starting in the 4th quarter of 2026, visa-exempt third-country nationals will require an electronic travel authorization called ETIAS (European Travel Information and Authorisation System) for short stays (up to 90 days) in the Schengen Area. The application costs €20, is valid for 3 years, and applies to travel in 30 European countries. Nothing changes for EU/EFTA citizens.
